

# Valiant.. one easy step up

**..to a big step  
ahead in value!**

The little extra in first cost you pay for Valiant brings you back so much more in so many practical ways—For instance. No other car in the medium price field treats you to that safe, gentle, stable, Valiant Torsion-bar suspension ride. And who else offers the brilliant performance of a 225 "Slant-Six" engine, balanced by the safety of 153.5 sq. in. braking area—No one!!—Only in Valiant, too, do you have the correct ratio between power and car weight—and, for added assurance of safety and stability, you have the widest wheel tracks and double-sided Safety-Rim wheels. If you prefer automatic transmission, Valiant has the simplest, safest, quietest and most "automatic".

Without doubt, the little extra for Valiant is money invested—that pays you higher dividends from the day you buy to the day you trade.

Why not stop wishing and start owning Valiant. Your Chrysler Dealer has the car, the keys and the courtesy waiting.
